M-D Building Products Names New Vice President of Operations

Bruce Campbell brings 35 years of experience and will manage all OKC Operations, including manufacturing, distribution, and planning

OKLAHOMA CITY — Bruce Campbell has been named Vice President of Operations for M-D Building Products, Inc., a privately held company involved in developing, manufacturing and marketing a range of residential and commercial weatherproofing, flooring and installation products. Campbell brings 35 years of experience in the industry to the role.

“We are excited about the expertise and knowledge Bruce brings to M-D, especially in driving process improvement and his ability to implement best practices,” said Ryan Plotkin, Chief Operating Officer, M-D Building Products. “His experience in the industry is an important and valuable addition to our Senior Leadership Staff as we reinforce our commitment to globally competitive American manufacturing and continuing industry leadership in both products and service.”

Campbell graduated from Brigham Young University with a degree in Manufacturing Engineering Technology as well as an Executive MBA from BYU in business. Before joining M-D, Campbell served as the Vice President of Manufacturing and Purchasing at Elkay Manufacturing and, most recently, Vice President of Operations - Fine Laminate Countertop Division of VT Industries.

As Vice President of Operations, Campbell will manage all OKC operations for M-D, including manufacturing, distribution, and planning.

“I am honored with the opportunity to work at a historic company like M-D with such a dynamic management team and dedicated workforce,” said Campbell. “With the leadership team, the future is bright and I look forward to building on our positive momentum as we continue to grow the company.”

About M-D Building Products

M-D Building Products designs, manufactures and markets a range of residential and commercial weatherproofing products, including door and window weather-stripping, garage door weather-stripping, pipe insulation and a complete line of interior and exterior caulk marketed under both the Tower Sealants

and DuPont™ brands. The company also produces aluminum and wood flooring transitions, flooring installation tools and custom plastic and aluminum extrusions.

The company is headquartered in Oklahoma City, where its primary manufacturing and distribution facilities are located. M-D Building Products also operates seven additional manufacturing and distribution sites across the U.S. and Canada. The company sells its products through numerous retailers and professional channels to consumers, contractors, wholesalers and community agencies across the nation.

In 2007, the current management team bought out the founding Macklanburg family after three generations. Led by majority shareholder Loren Plotkin, the management team has continued to grow and expand the company's product lines and upgraded manufacturing and distribution capabilities and facilities.
